Pacific Logger departing Tauranga past Mount Maunganui

14 Nov 2014

GS Greater China CEO Summit 2014
17 Nov 2014, HK
World’s Largest Handysize Bulker Owner/Operator

- Listed in Hong Kong
- ~US$1 billion market cap
- Global geographically
- Diversified customers & cargo
- Focus & growth of core business, exit non-core activities

**PB Dry Bulk Fleet Development**
Average number of ships operated

- Handysize
- Handymax
- Post-Panamax
Cargo Contract Business Model

- Large portfolio of cargo contracts – No outward timecharter
- Large fleet of high-quality substitutable ships
- High laden percentage
- Model allows for both/either owning or chartering in ships
- Average premium last 5 years = US$2,400/day

With you for the long haul
Why Handysize?

- Modest Handysize fleet growth
- Older age profile – higher scrapping
- Driven by minor bulk demand
- A segment in which scale & operations make a difference

Bulk Carrier Fleet Growth Index
deadweight basis, Yr 2003 = 100 pts

Source: Clarksons, 1 Nov 2014
Why Secondhand Ships?

- More volatility in second hand ships
- A slow steaming strategy
- Well designed secondhand Japanese ships remain operationally competitive
- Less capital – higher return

Handysize Vessel Values

Lowest fleet growth since September 2004
Demand Development

Demand Forecast is revised down during 2014

Chinese Imports 7 Minor Bulks less Bauxite and Nickel ore

Demand downgrade in 2014 explained first of all through reduced Chinese coal shipments to China as well as reduced port congestion

Source: R.S. Platou, Bloomberg
Taking Advantage of Strong Balance Sheet & Historically Low Prices

- Owned fleet of bulkers grow from 37 to 80
- Ships acquired are Japanese built
- Access to Japanese export credit financing of total US$485 mil
- Balance sheet remains strong with net gearing of 39% and cash of US$320 mil in 1H14
- 1H14 underlining loss of US$(21.5) mil (2013: US$13.6 mil)
- 1H14 EBITDA of US$38.9 mil (2013: US$59.4 mil)

Pacific Basin Overview

- A leading dry bulk owner/operator of Handysize & Handymax dry bulk ships
- Strong Pacific Basin business model
  - Large fleet of uniform, interchangeable, modern ships
  - Mix of owned and long-term, short-term chartered ships
  - Operating mainly on long term cargo contract (COA) and spot basis
  - Diversified customer base of mainly industrial producers and end users
  - Extensive network of offices positions PB close to customers
- About 250 vessels serving major industrial customers around the world
- Also owning/operating offshore and harbour tugs
- Hong Kong headquarters, 16 offices worldwide, 380 shore-based staff, 3,000 seafarers*
- Our vision: To be a shipping industry leader and the partner of choice for customers, staff, shareholders and other stakeholders

* As at Jan 2014

With you for the long haul
2014 Third Quarter Highlights

- Dry bulk market weakened further in 3Q with Handysize freight rates in July falling to very low levels last seen in Feb 2009

- Our 3Q average daily earnings (net):
  - Handysize: US$8,650/day on 14,310 revenue days
  - Handymax: US$9,840/day on 5,260 revenue days

- We outperformed the Handysize and Handymax markets by 46% and 17% respectively

- Our forward cargo cover for 2015:
  - Handysize: 19% covered at US$11,020/day
  - Handymax: 29% covered at US$12,140/day

- Well positioned:
  - doubled our owned fleet over 2012/2013 at historically attractive prices,
  - strong cargo systems
  - firm opex cost control

- Currently operate 213 dry bulk ships (including 80 owned) with a further 34 newbuildings (18 owned and 16 chartered) due to join our fleet over the next three years
Diverse range of commodities reduces product risk
China and North America were our largest market
60% of business in Pacific and 40% in Atlantic

- **Handysize**
  - 3Q13 Avg: $7,490
  - 3Q14 Avg: $5,910

- **Handymax**
  - 3Q13 Avg: $9,270
  - 3Q14 Avg: $8,430

2014 cover excludes index-linked chartered in revenue days
Despite reduced global dry bulk net fleet growth, freight market weakness was primarily driven by:

- On-going tonnage supply overhang
- Protracted Indonesian bauxite and nickel ore export ban
- Falling Chinese coal imports
  - Due mainly to record high Chinese hydro-electric output in 3Q & support for low-priced domestic coal

- 5 year old Handysize value: US$18.5m (↓12% YTD)

**Baltic Handysize Index (BHSI) & Baltic Supramax Index (BSI)**

*US$ freight rates are net of 5% commission

*Source: The Baltic Exchange*
Dry Bulk Demand

Dry Bulk Effective Demand

Chinese Minor Bulk Imports

- Indonesian export ban impacted global bauxite and nickel ore trades
  - Lower coal prices ➔ exporters resisted loss-making sales / China limits imports to support domestic coal prices
- Chinese imports of other minor bulks increased 17% in first 8 months (ex bauxite & nickel ore)
  - Lower iron ore prices ➔ China increased imports and miners ramped up exports

Source: R.S. Platou, Bloomberg
Global Dry Bulk Fleet Development

Dry bulk net fleet growth YTD:
- 38m tonnes of new capacity
- Partially offset by 12m tonnes of scrapping

With you for the long haul
In addition, direct overheads of US$620/day (2013: US$550/day)

Chartered in costs increased 19% mainly due to significantly higher short term chartered-in fixtures at the end of 2013
Pacific Basin Dry Bulk – Outlook

2014 Interim

- China’s continued strong minor bulk demand
  - Increased overseas mining output and lower commodity prices
  - Continued OECD economic recovery and reviving North American industrialisation
  - Moderate fleet growth: smaller scheduled newbuilding orderbook for 2014-2016
- Slower economic and industrial growth and slower growth in dry bulk imports
  - Increased national protectionism (e.g. China coal import tariffs) impacting key cargo trades
  - Ship owner optimism may return resulting in less scrapping and increased vessel ordering
  - Lower fuel prices causing vessels to speed up

PB Outlook

- On-going tonnage supply overhang + weaker than expected demand for seaborne trade
- Sustained demand growth of >6-7% necessary to support healthier supply/demand balance, hinges largely on China’s on-going economic and industrial development
- Positioned well:
  - doubled our owned fleet over the 2012/2013 at historically attractive prices
  - strong cargo systems
  - a firm opex cost control
PB Towage - Update

- Increased competition for fewer oil & gas and construction opportunities
- Reducing port volumes

**Harbour Towage:**
- Two new exclusive port licenses in Australia

**Offshore Towage:**
- Repositioning some of our underutilised tugs to Middle East, sold 2 barges
- Downsizing our New Zealand and Australian offshore towage organisation accordingly
- Following our 11 Sep announcement, Towage customer Western Desert Resources entered into voluntary administration
  - 4 tugs and 4 barges deployed on WDR project have all redelivered into our possession and remain idle without employment
  - if Administrator cannot find a buyer, we can expect to book an estimated charge of about ¾ of the US$8.9m of debts owning from WDR

**1H14 Performance**

<table>
<thead>
<tr>
<th></th>
<th>1H14</th>
<th>1H13</th>
<th>Change</th>
</tr>
</thead>

<tr>
<td>Towage EBITDA</td>
<td>(3.0)</td>
<td>19.8</td>
<td>-115%</td>
</tr>
</tbody>
</table>
PB Towage – Outlook

- Exclusive licenses in a number of bulk ports up for tender in 2015 onwards
- New employment opportunities in Middle East
- Expected tender for Gorgon’s operating phase transportation services contract
- Growth in Australian bulk exports, container trade supporting continued growth in harbour towage volumes

- High costs, labour market inflexibility, declining productivity, environmental concerns and global competition impacting Australian project economics and oil and gas industry outlook
- Further price competition from other operators
- Slower China growth impacting growth in dry bulk trades and Australian port activity
- Instability in Middle East a concern for energy and construction projects in the region

PB Outlook

- Short + long term outlook remains challenging
- **Harbour Towage:**
  - Increased competition and reduced volumes in a majority of ports
  - Focus: secure new exclusive harbour towage business
- **Offshore Towage:**
  - Increased competition for fewer employment opportunities
  - Focus: rationalise our offshore towage fleet and organisation in line with reduced activity
  - Provide secure and reliable service to harbour and offshore towage customers

</table>

- Vessel average net book value: Handysize $16.5m, 8.8 years
  Handymax $24.2m, 5.9 years
- US$372m undrawn bank borrowing facilities
- KPI: net gearing below 50%

**Note:** Total includes other segments and unallocated
Borrowings and Capex

**Schedule of Repayments and Vessel Capital Commitments**

As at 30 June 2014

- **Bank borrowings (US$645m)**
- **Convertible bonds**
  1. Face value US$210m, book value US$200m: conversion price: HK$7.10
- **Finance lease liabilities (US$21m)**
- **Vessel capital commitments (US$410m)**

Graph showing repayments and commitments with specific details for each year from 2H14 to 2019-2025.
At 1 Jan 2014
- Operating cash inflow: +486.1
- RoRo proceeds: +44.4
- Decrease in borrowings: -69.9
- Capex: -149.1
- Dividend paid: -12.4
- Net interest paid: -14.6
- Others: -1.2

As at 30 June 2014
- Operating cash inflow: +320.2

2014 cash levels expected to be affected by:
- Pace of capital expansion
- New loan facilities to be secured using our unmortgaged vessels
Dry Bulk Outlook & Strategy

- Very satisfied with our 51 ship acquisitions in 2012/2013 = doubled our owned fleet
- 18 owned Japanese newbuildings still to deliver in next 3 years
- Fully-funded capital commitments of US$410 million
- Positioned well:
  - doubled our owned fleet over 2012/2013 at historically attractive prices
  - strong cargo systems
  - a firm opex cost control

- Strategy:
  i) Firmly focused on our core dry bulk business, making strong platform even stronger
  ii) Strengthening cargo systems and customer relationships to optimise fleet utilisation

OUR LARGE VERSITILE FLEET

Fleet scale and interchangeable high-quality dry bulk ships facilitate service flexibility to customers, optimised scheduling and maximised vessel utilisation

In-house technical operations facilitate enhanced health & safety, quality and cost control, and enhanced service reliability and seamless, integrated service and support to customers

OUR STRONG CORPORATE & FINANCIAL PROFILE

Striving for best-in-class internal and external reporting, transparency and corporate stewardship

Robust balance sheet through conservative financial structure sets us apart as a preferred counterparty

Well positioned to deploy capital through selective investment in our core market when conditions are right

Responsible observance of stakeholder interests and our commitment to good corporate governance and CSR

OUR MARKET LEADING CUSTOMER FOCUS & SERVICE

Priority to build and sustain long-term customer relationships

Solution-driven approach ensures accessibility, responsiveness and flexibility towards customers

Close partnership with customers generates enhanced access to spot cargoes and long-term cargo contract opportunities of mutual benefit

OUR COMPREHENSIVE GLOBAL OFFICE NETWORK

Integrated international service enhanced by commercial and technical offices around the world

Being local facilitates clear understanding of and response to customers’ needs and first-rate personalised service

Being global facilitates comprehensive market intelligence and cargo opportunities, and optimal trading and positioning of our fleet
Group results were mainly influenced by:
- US$63.9mil write-off and provision for PB Towage business
- Dry bulk freight market decline in 2Q
- Losses from low-paying Handymax positioning voyages
- Loss of 450 revenue days from the routine dry docking of a large proportion of owned fleet
  + Effective business model → our TCE outperformed Handysize market by 23%
  + Good control over our owned vessel operating costs

Balance sheet remains healthy:
- US$320m total cash and deposits
- 39% group net gearing
- US$410m fully-funded dry bulk vessel capital commitments
Appendix: Fleet List – Oct 2014*

Appendix: Pacific Basin Dry Bulk – 1H14 Performance

- Handysize contribution marginally increased YOY
  - benefiting from outperformance and good owned vessels cost control
- Capacity increased
  - More purchased and long-term chartered vessels
- Overall dry bulk results impacted by:
  - Losses in 1Q on Handymax vessels short-term chartered at higher rates at end 2013 now expired to support cargo commitment
  - Losses from low-paying Handymax positioning voyages
  - Unexpectedly weak dry bulk market in 2Q
  - Loss of approx. US$5m of notional TCE earnings from unusually busy routine dry-docking programme
- 1H14 commitments: 1 newbuilding and 3 secondhand (owned); 3 newbuildings (long-term chartered)

<td>-349%</td>
</tr>
</tbody>
</table>

- Revenue days reflect vessels delivery:
  - Owned: 4 Handysize; 2 Handymax
  - Long-term chartered-in: 2 Handysize
- Higher cost short-term charters at the end of 2013 resulted in Handymax losses
Appendix: PB Towage – 1H14 Performance

- Increasingly competitive landscape

**Harbour Towage**
- Increase in job numbers driven by young Newcastle activity
- Reduced volumes in other bulk ports + statics volumes in liner ports

**Offshore Towage**
- Wind-down of construction phase of Gorgon and other gas projects ➔ increasing competition for fewer employment opportunities ➔ impacts utilisation
- Restructured barging operation in Northern Territory due to location difficulties ➔ unrecoverable project cost of US$3.5m

Following a review of third-party acquisition interest in PB Towage, our discussion with PSA Marine did not produce an offer for our harbour towage due primarily to increased price competition in recent months.

We will maintain our ownership of both harbour and offshore towage businesses.

Change in competitive landscape led our Board to reassess prospects for PB Towage and its likely future cash flows ➔ downgraded outlook for its long-term earnings capability.

Non-cash impairment charge + provision amounting to US$63.9m in 1H14
- non-cash: US$51.6m;
- impairment against our interest in JV: US$10.1m;
- provisions: US$2.2m

                      Bondholders can convert to PB shares when trading price > conversion price  

With you for the long haul
Appendix: Convertible Bonds Due 2018

Issue size: US$123.8 million
Maturity Date: 22 October 2018 (6 years)
Investor Put Date and Price: 22 October 2016 (4 years) at par
PB’s Call Option:
1) Trading price for 30 consecutive days > 130% conversion price in effect
2) >90% of Bond converted / redeemed / purchased / cancelled
Coupon: 1.875% p.a. payable semi-annually in arrears on 22 April and 22 October
Redemption Price: 100%
Initial Conversion Price: HK$4.96 (current conversion price: HK$4.84 with effect from 23 April 2014)
Intended Use of Proceeds: To acquire additional Handysize and Handymax vessels, as well as for general working capital

Conversion/redemption Timeline

- Closing Date: 22 Oct 2012 to 2 Dec 2012
- Maturity: 22 Oct 2018
- PB’s call option to redeem all bonds
  1) Trading price for 30 consecutive days > 130% conversion price in effect
  2) >90% of Bond converted / redeemed / purchased / cancelled
- Bondholders can convert all or some of their CB into shares
- Bondholders’ put option to redeem bonds

"With you for the long haul"
Appendix: Dry Bulk Fleet Profile

Handysize Age Profile
(25,000-39,999 dwt)

2,251 vessels (72.8mil dwt)

- 0-15 years: 77%
- 16-24 years: 11%
- 25-29 years: 6%
- 30+ years: 6%

Total Drybulk Year - on-Year Net Fleet Growth (%)

Lowest fleet growth since September 2004

Source: Clarksons
Appendix: China at late-Industrialisation Stage

- China growth matches historical trend in Japan and Korea
- Suggests strong growth in dry bulk segment to remain for medium term
- Similar trend for electricity and cement
