- Handysize contribution marginally increased YOY
  - benefiting from outperformance and good owned vessels cost control
- Capacity increased
  - More purchased and long-term chartered vessels
- Overall dry bulk results impacted by:
  - Losses in 1Q on Handymax vessels short-term chartered at higher rates at end 2013 now expired to support cargo commitment
  - Losses from low-paying Handymax positioning voyages
  - Unexpectedly weak dry bulk market in 2Q
  - Loss of approx. US$5m of notional TCE earnings from unusually busy routine dry-docking programme
  - 1H14 commitments: 1 newbuilding and 3 secondhand (owned); 3 newbuildings (long-term chartered)

A weak 2Q14 (7% lower Handysize rates than 2Q13) was not anticipated by the market.

Fundamentally market recovery remains fragile – growing demand has not yet fully absorbed excessive supply.

Weak 2Q14: fall in Atlantic rates; repositioning of more ships than usual into Atlantic; reduced S. American port congestion.

5 year old Handysize value declined 7% YTD but increased 26% since start 2013.

Chinese imports decreased 6.7% YOY (ex nickel ore & bauxite: increased 20%)

These 7 commodities make up over one third of the cargo volumes we carry:
logs, soybean, fertiliser, bauxite, nickel, copper concentrates & mang. ore

Indonesian export ban significantly reduced Chinese imports of bauxite and nickel ore
Excluding these trades, Chinese imports of other minor bulks increased 21% in 1H14
- Europe coal imports reduced
- Argentinian grain exports on hold

Pacific Basin Dry Bulk – Outlook

- China’s continued strong minor bulk demand
- Increased overseas mining output and lower commodity prices
- Continued OECD economic recovery and reviving North American industrialisation + stronger than expected recovery in Europe
- Moderate fleet growth: smaller scheduled newbuilding orderbook for 2014-2016 + continued scrapping

PB Outlook

- Expect improvement in 4Q14 – from a low base
- Typically fewer shipyard deliveries and greater dry bulk cargo volumes in 2H14
- Outlook for our own business: positive
  ➔ satisfied with counter-cyclical ship acquisition program and 51 vessels purchased in past 2 years
  ➔ competitive cost base + increased capacity

Strategy:

- Firmly focused on Handysize + Handymax
- Proactively working to further strengthen our cargo systems and customers relationships to optimise utilisation of our fleet
- Remain selectively open to ship acquisition at appropriate prices but at a much slower pace compared to 2013

- Ship owner optimism may return resulting in less scrapping and increased vessel ordering
- Credit squeeze in China leading to slower economic and industrial growth and slower growth in dry bulk imports
- Lower fuel prices causing vessels to speed up
- Increased national protectionism (e.g. Indonesian minerals export ban) impacting key cargo trades

PB Towage Fleet: 47 vessels (as at 30 Jun 2014)

- 35 Tugs (31 Owned + 4 Chartered)
- 10 Barges (10 Owned)
- 1 owned bunker tanker and 1 chartered passenger/supply vessel
PB Towage – Outlook

- Exclusive licenses in a number of bulk ports up for tender in 2015 onwards
- New employment opportunities in Middle East, where we already have a presence and relationships
- Expected tender for Gorgon’s operating phase transportation services contract
- Growth in Australian bulk exports, container trade supporting continued growth in harbour towage volumes

- High costs, labour market inflexibility, declining productivity, environmental concerns and global competition impacting Australian project economics and oil and gas industry outlook
- Further price competition from other operators
- Credit squeeze in China impacting growth in dry bulk trades and Australian port activity
- Instability in Iraq and Iran a concern for energy and construction projects in the Middle East

PB Outlook

- **Harbour Towage:** Expect continued expansion of Australian seaborne trade to support growth in harbour towage demand overall – albeit with increased competition for market share
- **Offshore Towage:** Challenging outlook for Australian offshore towage – reduced demand and increased competition

**Strategy:**
- Harbour towage focus: tender for licenses in new ports, grow our Newcastle business, and provide 1st class service to all customers
- Offshore towage focus: on manage and restructure our business as vessels redeliver, compete for tenders, reposition vessels for replacement employment
- Remain committed to these businesses and to providing secure and reliable service to harbour and offshore towage customers

Cash Flow – 1H14 Sources and Uses of Group Cash Flow

2014 cash levels expected to be affected by:
- Pace of capital expansion
- New loan facilities to be secured using our unmortgaged vessels
Expect dry bulk market to improve in 4Q14 – albeit from a low base
- A benefit of weak market = new ship ordering has substantially stopped
- Our daily earnings outperformed spot market indices = effective business model
- Our dry bulk EBITDA of $53 million was up year on year
- Future fundamentals look favourable for Handies, despite fragility of the market recovery
- Very satisfied with our 51 ship acquisitions in the past two years = doubled our owned fleet
- 18 owned Japanese newbuildings still due to deliver in next 3 years
- Fully-funded capital commitments of US$410 million
- Our counter-cyclical owned fleet expansion at historically attractive prices positions us to leverage the market recovery we expect

Strategy: i) Firmly focused on our core dry bulk business, making strong platform even stronger
- Strengthening cargo systems and customer relationships to optimise fleet utilisation
- Selectively open to ship acquisitions but at a much slower pace compared to 2013

OUR LARGE VERSITILE FLEET

Fleet scale and interchangeable high-quality dry bulk ships facilitate service flexibility to customers, optimised scheduling and maximised vessel utilisation.

In-house technical operations facilitate enhanced health & safety, quality and cost control, and enhanced service reliability and seamless, integrated service and support to customers.

OUR STRONG CORPORATE & FINANCIAL PROFILE

Striving for best-in-class internal and external reporting, transparency and corporate stewardship.

Robust balance sheet through conservative financial structure sets us apart as a preferred counterparty.

Well positioned to deploy capital through selective investment in our core market when conditions are right.

Responsible observance of stakeholder interests and our commitment to good corporate governance and CSR.

OUR MARKET LEADING CUSTOMER FOCUS & SERVICE

Priority to build and sustain long-term customer relationships.

Solution-driven approach ensures accessibility, responsiveness and flexibility towards customers.

Close partnership with customers generates enhanced access to spot cargoes and long-term cargo contract opportunities of mutual benefit.

OUR COMPREHENSIVE GLOBAL OFFICE NETWORK

Integrated international service enhanced by commercial and technical offices around the world.

Being local facilitates clear understanding of and response to customers’ needs and first-rate personalised service.

Being global facilitates comprehensive market intelligence and cargo opportunities, and optimal trading and positioning of our fleet.
Group results were mainly influenced by:
- US$63.9mil write-off and provision for PB Towage business
- Dry bulk freight market decline in 2Q
- Losses from low-paying Handymax positioning voyages
- Loss of 450 revenue days from the routine dry docking of a large proportion of owned fleet
  + Effective business model → our TCE outperformed Handysize market by 23%
  + Good control over our owned vessel operating costs

Balance sheet remains healthy:
- US$320m total cash and deposits
- 39% group net gearing
- US$410m fully-funded dry bulk vessel capital commitments

- Higher cost short-term charters at the end of 2013 resulted in Handymax losses
Appendix: PB Towage – 1H14 Performance

- Increasingly competitive landscape

**Harbour Towage**
- Increase in job numbers driven by young Newcastle activity
- Reduced volumes in other bulk ports + statics volumes in liner ports

**Offshore Towage**
- Wind-down of construction phase of Gorgon and other gas projects → increasing competition for fewer employment opportunities → impacts utilisation
- Restructured barging operation in Northern Territory due to location difficulties → unrecoverable project cost of US$3.5m

- Following a review of third-party acquisition interest in PB Towage, our discussion with PSA Marine did not produce an offer for our harbour towage due primarily to increased price competition in recent months
- We will maintain our ownership of both harbour and offshore towage businesses
- Change in competitive landscape led our Board to reassess prospects for PB Towage and its likely future cash flows → downgraded outlook for its long-term earnings capability
- Non-cash impairment charge + provision amounting to US$63.9m in 1H14
  - non-cash: US$51.6m;
