- Group results were impacted by:
  - a US$190m impairment of RoRo investment
  - a weaker dry bulk spot market
  - a strong US$14m contribution from PB Towage
- Balance sheet retains substantial buying power with US$657m cash and low 14% group net gearing
- Fully funded vessel capital commitments of US$262m, all for dry bulk vessels
- No dividend for first half
- Will consider a payout based on the Group’s full-year performance
Pacific Basin Dry Bulk – 1H12 performance

Handysize
- Handysize daily rate: US$10,540 (-23% YOY)
- Outperformed the weak spot market by 38%
- Respectable performance in a on-going poor market

Handymax
- Handymax daily rate: US$11,520 (-24% YOY)
- Outperformed the spot market by 22%
- Disappointing results due to reliance on relatively expensive medium term chartered ships in weak market

Post-Panamax
- 2 Post-Panamax ships continue to operate satisfactorily under long-term charters

Other highlights
- 10 chartering offices across 6 continents – generating new customers, long-term cargo contracts and business to supplement our traditional bulk-based activity
- New operating system supports larger fleet

- Fixed: 94% (US$11,830)
- Unfixed: 40% (US$13,890)

Pacific Basin Dry Bulk - Earnings Coverage
Dry Bulk Market Information

- Market freight rates for Handysize and Handymax declined 34% and 49% in first six weeks to 3-year lows
  - A surge of newbuilding deliveries
  - Seasonal weather-related cargo disruptions in influential trades areas and an early Chinese New Year
- Rates gradually recovered since February due to revival in “minor bulk” cargo flows
- Cold lay-up for some Capesize ships due mainly to excessive supply
- Handysize and Handymax were again supported by a higher earnings floor than larger bulk carriers

Baltic Dry Index (BDI) versus Baltic Handysize Index (BHSI) & Baltic Capesize Index (BCI)

- Dry Bulk market in 1H12 was 31% weaker than 1H11

Secondhand Handysize Values (5 year old 32,000 Dwt)

- July 2012: US$16m

*Includes 13 finance lease vessels*
**Dry Bulk Demand**

**6.5% increase in 1Q12 dry bulk demand** reflecting resilience in international & Chinese coastal commodity trade...

- Despite weaker global economic conditions and slowing Chinese economic growth
- China continued to dominate dry bulk demand developments, most notably importing:
  - 10% more iron ore yoy
  - 82% more coal yoy
  - 20% more minor bulks yoy

* R.S. Platou estimate

Source: R.S. Platou, China Customs, Bloomberg
Global Dry Bulk Fleet Development

- Dry bulk capacity expanded 6.4% net in first half, and 14.5% net YOY
- Driven by the influx of 56m tonnes of new capacity
- Heavy influx of newbuildings was partially offset by record-high scrapping (1H12: 16m)
- Handysize fleet grew only 2.4% net in 1H12
- 28% of Handysize fleet is over 25 years old

Handysize Age Profile (25,000-39,999 dwt)
2,110 vessels (67.7m dwt)

- 0-15 years 63%
- 16-24 years 9%
- 25-29 years 20%
- 30+ years 8%

Dry Bulk Scraping versus BDI

Global Dry Bulk Fleet Development

Source: Clarksons, Morgan Stanley, Bloomberg, as at 1 Jul 2012
*Scheduled orderbook as at 1 Jan 2012

2012 Interim Results
Ship owners ordered >60% less new capacity in 1H12 due to weak market conditions

139m dwt of new capacity scheduled to deliver in FY12 *

Newbuilding deliveries of 56m dwt were 34% below the scheduled orderbook at the start of the year – in line with our shortfall expectations for the full year.

*2012 Interim Results 9*
Pacific Basin Dry Bulk - Outlook

- Strong Chinese demand for minor bulk commodities
  - Growth in China’s dominant share of global bulk imports
- Scope of stronger recovery in US
- Increased levels of scrapping of older dry bulk capacity
- Severe bank lending constraints limit funding for ship acquisitions, raising barriers to entry and increasing opportunities for cash rich owners

- Continued excessive newbuilding deliveries
  - Hesitant global economic recovery impacted by continued crisis in Europe
  - Potential reduction in US grain exports if the current US drought persists
  - Falling fuel prices reversing slow steaming rend and releasing further tonnage capacity in the market
  - Potentially weaker growth in the Chinese economy and industrial production

PB Conclusion:

- Handysize and Handymax spot markets expected to remain weak over 2H12
- Scope remains for seasonal demand improvements to lift rates in our sectors temporarily around end of 3Q
- Expect dry bulk freight rates will be weaker overall in 2012 than in 2011
- 2012 to be a tough year for our dry bulk business

Strategy: Invest in further expansion of our dry bulk fleet
PB Towage

1H12 Performance

- Favourable market conditions and improved market presence and penetration continued to strengthen our towage results

Offshore Towage

- Australian offshore and infrastructure projects on the rise, e.g:
  - Increased vessel deployment in the Chevron-led Gorgon offshore gas project
  - Continued activity on BG’s Queensland Curtis LNG (QCLNG) project in Gladstone
  - Secured new contract to service Australia Pacific LNG project in Gladstone, which commenced in 2H12
  - New business alliance with US-based Crowley Solutions Group

Harbour Towage

- Market share is growing in the main liner ports and the vessel calls in bulk ports increase.
- Partners with Boluda to target LNG Terminal towage business
- Market conditions in Middle East remain challenging

<table>
<thead>
<tr>
<th></th>
<th>1H12</th>

<tr>
<td>Return on net assets (Annualised)</td>
<td>12%</td>
</tr>
</tbody>
</table>

PB Towage Fleet: 44 vessels
(as at 23 July 2012)

- 35 Tugs (32 Owned + 3 Chartered)
- 7 Barges (6 Owned + 1 Chartered)
- 1 owned Bunker Tanker and 1 chartered passenger/supply vessel
PB Towage - Outlook

- New projects expected to commence in Australasia towards year end in both oil and gas and mining sectors
- Continued improvement in Australian port activity with a relatively strong domestic economy and Chinese demand for primary resources
- Potential further slowdown in Chinese industrial growth impacting Australian commodity exports and port activity
- On-going labour market supply and cost pressures
- Increased supply and pricing competition as new entrants seek to redeploy assets from Asia

PB Conclusion:
- Expect Australian towage activity to be maintained over the rest of 2012 and to improve further in the medium term
- PB Towage is well positioned to participate in increasing activity
- Benefit from recently secured additional business in Gladstone LNG project and Gorgon project

Strategy: strategically committed to our towage business and to grow this division through carefully considered investment
PB RoRo - Latest Developments – Sale of 6 RoRo vessels

- Signed Agreement to sell all 6 RoRo vessels to Atlantica (a Grimaldi Group company)
- Consideration: Eur153m (approx. US$188m)
- Atlantica will purchase at least one vessel by end of each six month period ending 30 June and 31 December in 2013, 2014 and 2015, paying the relevant portion of consideration on respective delivery dates
- All 6 vessels will be bareboat chartered to Atlantica until they deliver into Atlantica’s ownership
- Bareboat charter commencement:
  - 2 vessels (built 2011 and 2012 at Odense) expected to commence by 31 Oct 2012
  - 2 vessels (both built 2010 at Hyundai Mipo) expected to commence by 31 Jan 2013
  - 2 vessels (built 2009 and 2011 at Odense) expected to commence around end of 1Q13 (but no later than April 2014) after their current charters expire
- Atlantica will pay Eur10m (approx. US$12.3m) deposit which will be deducted from payment of first vessel purchase price
- Reasons for transactions:
  - Fully addresses our revised RoRo strategy by providing employment and a definite exit timetable for all 6 RoRo vessels
  - Allows us to direct more of our resources to our core dry bulk and towage businesses
**PB RoRo**

**1H12 Performance**

- Severe weakness in the RoRo charter market
- Achieved average daily charter rates of US$19,450 on utilisation of 55%

<table>
<thead>
<tr>
<th>1H12</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>PB RoRo net loss</td>

<td>-</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>-</td>
</tr>
</tbody>
</table>

**Note:**

- US$ Group income will depend on the average Euro exchange rate in the year earned
- *Estimates are based on exchange rate of US$1.228 to Eur1.0
PB RoRo – Estimated Financial Impact of Sale

Estimated financial effect of 6 vessel sale on PB consolidated P/L:

<table>
<thead>
<tr>
<th>US$m</th>
<th>2012</th>
<th>2013</th>
<th>2014</th>
<th>2015</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest income</td>
<td>0.6</td>
<td>8.5</td>
<td>6.1</td>
<td>2.7</td>
<td>17.9</td>
</tr>
<tr>
<td>Additional impairment charge</td>
<td>(0.4)</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>(0.4)</td>
</tr>
<tr>
<td>Group non-cash exchange losses transferred to P/L</td>
<td>(11.1)</td>
<td>(16.5)</td>
<td>-</td>
<td>-</td>

</tr>
<tr>
<td>Total</td>
<td>(10.9)</td>
<td>(8.0)</td>
<td>6.1</td>
<td>2.7</td>
<td>(10.1)</td>
</tr>
</tbody>
</table>

- Carrying value of 6 vessels immediately after additional impairment charge will be US$174m – be reclassified as “assets held for sale”
- Each vessel sale will result in the release of the cumulative foreign exchange reserve (relating to the translation of Euro-denominated net asset value of each vessel’s owning company to US$) to the consolidated PB’s P/L (Exchange losses) at the bareboat charter commencement date
- Estimates are based on exchange rate of US$1.228 to Eur1.0

Capex and Combined Vessel Value

A Combined View of Vessel Carrying Values and Commitments

- Total US$262m
- Vessel commitments expected in Dry Bulk

- Future installments amount: US$262m
- Progress payment made: US$144m
- Vessel carrying values: US$1,032m
- Assets held for sale: US$174m

Note: Following 7 Sep 2012 announcement of 6 RoRo vessel sale

Further commitments expected in Dry Bulk

As at 30 Jun 2012
The Group had cash balances of US$657m, borrowings of US$853m and a net borrowings ratio of 14% against the Net Book Value of property, plant and equipment post impairment.

Borrowing and Capex

As at 30 Jun 2012

- Vessel capital commitments (US$262m)
- Bank borrowings (US$489m): expire between 2014-2023
- Finance lease liabilities (US$160m): expire between 2015-2017
- Convertible Bonds (Face value US$230m): due April 2016, redeemable in Apr 2014

2012 Interim Results
Our Position, Outlook, and Strategy

**Dry Bulk**
- Strong cargo and customer focused business model – Outperforming both market and larger ships
- Capacity expansion, slower Chinese growth and uncertainty in global trade
- Expect weaker freight rates overall in 2012 than 2011
- Protracted dry bulk market weakness and significant contraction in funding will eventually generate opportunities for cash-rich ship owners like ourselves
- **Strategy:** Continue to build existing strategy – This is where most of our investments will take place

**Towage**
- Well positioned and expect further improvement in the medium term
- Towage outlook remains positive with growing service to Australian LNG projects
- **Strategy:** Grow our towage division through carefully considered investments in both the project and harbour sectors, as specific projects materialise

**RoRo**
- Continue to manage the vessels in an efficient manner until they all deliver to Grimaldi Group

**Other Business Highlight**
- Consider opportunities for further divestment of non-core businesses

Appendix: Pacific Basin Overview

- A leading dry bulk owner/operator of Handysize & Handymax dry bulk ships
- Flexible Pacific Basin Dry Bulk business model
  - Large fleet of uniform, interchangeable, modern ships
  - Mix of owned and long-term, short-term chartered ships
  - Operating mainly on long term cargo contract (COA) and spot basis
  - Diversified customer base of mainly industrial producers and end users
  - Extensive network and offices positions PB close to customers
- Also owning/operating offshore and harbour tugs and RoRo freight ferries
- >230 vessels serving major industrial customers around the world
- Hong Kong headquarters, 19 offices worldwide, 300 shore-based staff, 2,000 seafarers*
- Our vision: To be a shipping industry leader and the partner of choice for customers, staff, shareholders and other stakeholders

* As at Mar 2012
Appendix: Our Dry Bulk Business Model

- Largest owner and operator of modern Handysize ships with 9% share of global fleet of modern (max 15 years) 25,000-40,000 dwt bulk carriers
- Scale and uniformity for reliable service
- Homogeneous fleet of interchangeable ships allows us to optimise our scheduling
- Comprehensive in-house technical operations function
- 19 offices globally – including 14 dry bulk offices across 6 continents
- Localised chartering and operations support
- Facilities comprehensive, accurate market intelligence
- Strong reputation
- Ability to engage closely with quality partners and stakeholders
- Strong public balance sheet and track record enhance our profile
- CSR and environmental programmes
- Customer-focused model - strong relationship with >300 customers
- Spot cargoes and long term cargo contracts – affording customers reliable freight cover
- Committed service delivery to customers
Diverse range of commodities reduces product risk
Australia and China were our largest loading and discharging zones respectively
Increasing proportion of our business in the Atlantic
Appendix: China at late-Industrialisation Stage

Steel Consumption Per Capita

- China growth matches historical trend in Japan and Korea
- Suggests strong growth in dry bulk segment to remain for medium term
- Similar trend for electricity and cement

Total return on net assets: 12.7%
June 2012 US$190m impairment will reduce deprecations by about US$3,000 per day.
Appendix: PB RoRo Impairment in June 2012

- 18 June, announced US$190m non-cash impairment following reassessment of RoRo prospects
- Euro-centric RoRo market severely impacted by protracted European debt crisis and macro-economic and political uncertainty
- Significantly reduced demand for chartered RoRos
- Influx of newbuildings into already over-supplied sector
- We do not have our own route network to fall back on
- Expect flatter recovery in charter rates - not likely to exceed 75% of 2008 peak
- Dysfunctional RoRo sale and purchase market
- Impairment sensitivity: approx. US$30m adjustment for every US$1,000 decrease/increase in daily vessel earnings assumption

Financial Effects:
- Depreciation reduced by approx. 50% to US$3,000/day
### Appendix: Convertible Bonds Due 2016

<table>

</tbody>
</table>
| **Conversion Condition** | Before 11 Jan 2011: No Conversion is allowed  
                           12 Jan 2011 – 11 Jan 2014: Share price for 5 consecutive days > 120% conversion price  
                           12 Jan 2014 – 5 Apr 2016: Share price > conversion price |
| **Intended Use of Proceeds** | To purchase the 3.3% Existing Convertible Bonds due 2013, then redeem the 2013 Convertible Bonds (now all redeemed & cancelled) |
| **Conditions**       | ▪ Shareholders’ approval at SGM to approve the issue of the New Convertible Bonds and the specific mandate to issue associated shares.  
                        ▪ If the specific mandate is approved by the shareholders at the SGM, the Company would not pursue a new general share issue mandate at the forthcoming AGM on 22 April 2010 |

### Conversion/Redemption Timeline

- **Closing Date**: 12 Apr 2010
- **12 Jan 2011**: No Conversion
- **12 Jan 2014**: Bondholders can convert to PB shares when trading price > conversion price in effect for 5 consecutive days
- **12 Apr 2014**: Bondholders’ put option to redeem bonds
- **5 Apr 2016**: Bondholders can convert to PB shares when trading price > conversion price
- **12 Apr 2016**: Maturity

- **PB’s call option to redeem all bonds**:  
  1) Trading price for 30 consecutive days > 130% conversion price in effect  
  2) >90% of Bond converted / redeemed / purchased / cancelled
