Pacific Basin Overview

- One of the world’s leading dry bulk owners/operators of modern handysize and handymax vessels

- Flexible Pacific Basin dry bulk business model
  - Large scale fleet of uniform, interchangeable modern vessels
  - Mix of owned, long-term and short-term chartered ships
  - Diversified customer base of mainly industrial end users

- Growing presence in
  - Energy & Infrastructure Services
  - RoRo sector

- Over 160 vessels serving major industrial customers

- Hong Kong headquarters, 20 offices worldwide, 350+ Group staff, 1,700+ seafarers *

As announced:

- Dr. Simon Lee (Non-executive Director) passed away aged 82, one of Pacific Basin’s greatest supporters

* As at Jan 2010
2009 Group Highlights & 2010 Goals

- Revenue and Net Profit (US$ m)
  - Revenue
  - Net Profit

<table>

<tr>
<td>2009</td>
<td>950.5</td>
<td>110.3</td>
</tr>
</tbody>
</table>

- Net Profit: US$110m (2008: US$409m)
- Basic EPS: HK$0.46 (2008: HK$1.89)
- ROE: 8% (2008: 35%)
- Net Profit Margin: 12% (2008: 24%)
- US$145m operating cash flow (2008: US$459m)
- 2009 Dividend per share (HK$): HK$0.23 (2008: HK$0.76)
  
  Including proposed final dividend of HK$0.15

- Results incorporate:
  - US$25m impairment of RoRo investment
  - net US$25m write-back of onerous dry bulk contracts for future periods

- Ambitions recalibrated and goals set for 2010 and beyond
  - Significantly expand our dry bulk fleet subject to price and market developments
  - Grow our energy and infrastructure services operations in specialised markets with high entry barriers and focus on Australasia and Middle East
  - Secure employment for our remaining RoRo newbuildings delivering in second half 2010 and 2011
Pacific Basin Dry Bulk – 2009 Performance

- **Dry bulk net profit**: US$138m
  - **Handysize**: US$124m
  - **Handymax**: US$14m
- **Fleet** employed worldwide carrying a mix of contract (COA) and spot cargoes
- **28.8mil tonnes of cargoes** were carried in 2009:
  - **Handysize**: logs & forest products, grain & agriculture products, metal concentrates
  - **Handymax**: coal/coke, ore, grain & agriculture products
- **Strategy**:
  - Secure forward cargo cover for 2011 and beyond
  - Maintain a cost-competitive fleet
  - **Fleet expansion**
    - Since Dec 2009, purchased 5 ships at some of the lowest prices of the past 5 years
    - Long-term chartered 3 ships

**Pacific Basin Dry Bulk Fleet: 121**
(as at 28 Feb 2010)

- Average age: 6.8 years
- Average net book value:
  - **Handysize**: US$17.8 m
  - **Handymax**: US$16.8 m

**Pacific Basin Dry Bulk Fleet: 121**

- **Handysize**:
  - 85 ships: owned
  - 34 ships: chartered
  - Average net book value: US$17.8 m
- **Handymax**:
  - 24 ships: owned
  - 2 ships: chartered
  - Average net book value: US$16.8 m
- **Post - Panamax**:
  - 2 ships: chartered
Dry Bulk Market Information

**Baltic Dry Index**

- **25 Feb 2010**
  - 2,711

**The Baltic Handysize Index (BHSI)**

- **25 Feb 2010**
  - US$ 15,758 (net)

1 Year TCE net rate

- **Capesize** - $33,250
- **Panamax** - $23,988
- **Supramax** - $20,425
- **Handysize**
  - 1-Year: $14,488
  - 3-Year: $13,063

BHSI officially began on 2 January 07

Sources: Clarksons, The Baltic Exchange, Bloomberg LP
Strong 2009 freight market improvement cannot be easily explained by fundamentals

- 2009 demand growth did not exceed supply growth
- Sharp improvement from exceptionally weak starting point
- Large improvement in Q4 demand yoy
Chinese Commodity Demand

China Iron Ore Sourcing for Steel Production

- Import: Yellow bars
- Domestic: Blue bars
- Total requirement for steel production (basis international Fe content level 62.5%)

China is a Net Importer of Coal

- Export: Orange bars
- Import: Blue bars
- Net Import: Red bars

**Key Points:**

- China iron ore and coal imports increased 41% and 218% respectively yoy.
- China’s decision on where it imports commodities from significantly impacts overall tonne-mile demand.
- Port congestion and China’s domestic coastal trade increased.

*Source: Bloomberg LP, Macquarie, Pacific Basin*
Dry Bulk Orderbook

- Orderbook peaks in 2010 dominated by Capesize
- 2009 handysize net fleet growth: -0.4%
- Ageing fleet and relatively small orderbook

Source: Clarksons 1 Feb 2010

* Handysize is defined as 25,000-34,999 Dwt
Dry Bulk Fleet Changes

**Dry Bulk Fleet Delivery & Scheduled Orderbook**

<table>
<thead>
<tr>
<th>Year</th>
<th>Scheduled Orderbook</th>
<th>Recorded Delivery</th>
</tr>
</thead>
<tbody>
<tr>

<td>126.0</td>
<td></td>
</tr>
</tbody>
</table>

**Brokers’ non-delivery predictions range from 35% to 40%**

**World dry bulk fleet expanded by 10% yoy, significantly above the 7% of previous 5 years**

**41% delivery shortfall against schedule in 2009 mainly due to ineffective orders and construction delays**

**Scraping dropped when freight rates recovered strongly in 2H09**

**Dry Bulk Scrapping versus BDI**

- **2009 total scrapping:**
  - Dry Bulk – 10m dwt
  - Handysize – 5m dwt

- **Scheduled Orderbook**

Handysize Vessel Values

5 Year Old 28,000 Dwt Values

Sales and purchase activity return after stagnation for most of 2009

Clarksons resumed publication of ship values
January 2010: US$23 million for 5 year old

PB purchased 5 vessels since Dec 2009

Source: Clarksons (up to Oct 2008, since Jan 2010), Aggregate brokers estimates (from Oct 2008 to Dec 2009)
Dry Bulk Outlook

+ Global economic recovery
+ Strong cargo demand from China
+ Port congestion & others bottlenecks
+ Slippage and non-realisation of 2010 scheduled newbuilding deliveries

- Unwinding Chinese economic stimulus
- Enormous orderbook for 2010
- Increasing commodity prices favour domestic production over imports

PB Conclusion

- Shift from a negative to a neutral market view for 2010
- Investing in dry bulk vessels
- Maintain cost-competitive fleet and avoid significant inflation of break-even cost
- Building cover for 2011 and beyond
# PB Dry Bulk Earnings Coverage

</tbody>
</table>

- **59% of 2010 handysize revenue days covered at US$14,290**
- **Total combined cover * 64% for 2010**

^ Excludes 2 handymax vessels on long term charter out

*As at 22 Feb 2009, we had combined cover of 64% of handysize / handymax fleet (covered 59% of our 2010 handysize revenue days and 81% of our 2010 handymax revenue days, equating to approximately 64% of our handysize equivalent days)*
PB Energy & Infrastructure Services

- **Return on assets:** 4%
- **2009 Performance:**
  - Offshore tug utilisation of 72% but at a lower margin
  - Low oil price resulted in weak demand for offshore towage
  - Container market slump led to fewer tug jobs at depressed rates
  - Strong profitable growth in infrastructure projects (mainly FBSL)
  - Gorgon project has been successful from the outset with 5 tugs employed

**PB Towage Fleet:**
- 40 vessels (as at 28 Feb 2010)
- 23 Owned tugs
- 7 Tugs newbuildings
- 6 Barges
- 1 Bunker tanker

**Segment net profit**
- 8.2

**PB Energy & Infrastructure Services**
- Offshore and project supply and harbour towage services (“Towage”) 1.0
- Fujairah Bulk Shipping (“FBSL”) 6.3
- PacMarine Services 0.9

**Towage Fleet:**
- PB Towage Australia (Harbour Towage)
- PB Towage Middle East (Offshore Projects)
- PB Sea-Tow (Offshore Projects)
PB Energy & Infrastructure – Fujairah Bulk Shipping

- FBSL contribution to PB results: US$6.3m (2008: US$0.3m)
- Land reclamation for Municipality of Fujairah requiring approx. 54m tonnes of rock & aggregates of which over 30m tonnes already delivered
- FBSL well positioned for growth:
  - Construction of Abu Dhabi Crude Oil Pipeline to Fujairah
  - New regional projects

About FBSL
- JV between PB (50%) and Government of Fujairah
- Staff: >600
- Services: Rock & aggregates export, domestic reclamation, fully integrated supply chain including transportation & logistics in the Gulf Region
Energy & Infrastructure – Outlook

+
- Global economic recovery
- High entry barriers
- Increase in oil and energy prices
- Resumption of infrastructure and offshore projects
- Low orderbook
- High scrapping potential

- Container-related harbour towage market still weak

PB Conclusion
- Positive market outlook in 2010
- Expand in infrastructure and offshore projects
- Needs to build scale, realise synergies, optimise systems and processes
- Not yet able to reap full benefit of good market position
PB RoRo

2009 net profit US$0.1 m

- Group incurred US$25m impairment reflecting our concern about ability to deploy RoRo vessels profitably in 2010 and 2011
- First vessel “Humber Viking” fixed to Norfolk Line for 3 years from Sep 2009
- 5 newbuildings remain on order
  - 2 chartered in vessels with purchase options to deliver late 2010
  - 3 postponed newbuildings to deliver in 2011
- Strategy
  - Become a tonnage supplier to major European freight service operators
  - Actively continue to explore employment opportunities within and outside European
  - We do not anticipate investing in further RoRo ships until our existing orderbook has been profitably employed

Favourable design of our RoRo vessels for European market:
- High speed
- Low fuel consumption
- Optimal deck heights
- Wide fixed ramps
- High degree of maneuverability

World RoRo Fleet
472 Vessels (899,753 Lane Metres)

RoRo Market Development in 2009 (estimates)
- Europe trailer demand: ↓ 20-25%
- 1 year moving average TCE rate: ↓ 35%
- Vessel values: ↓ 10-15%

- Long-term fundamentals attractive
- Ageing RoRo fleet → scrapping
- Low orderbook: 16%

Source: Maersk Broker Jan 2010, Danske Bank
RoRo – Outlook

+
- Slow economic recovery in Europe
- Increasing environmental regulation, trend towards use of larger, more fuel efficient RoRos
- Scrapping (ageing RoRo fleet)

- Increased RoRo newbuilding deliveries expected in 2010/2011
- Limited employment potential
- Indebtedness of UK economy affecting trailer traffic volumes

PB Conclusion
- Expect challenging, only moderately improving trading environment for RoRos in 2010
- Positive outlook for long term with revival of European economic growth and favourable demand/supply balance

Outlook

- Focus on three core businesses:
  - Pacific Basin Dry Bulk
  - PB Energy & Infrastructure Services
  - PB RoRo

- Slow, gradual recovery of global economy & international trade
- Continued demand growth in China / Asia – stronger for longer
- Our outlook for dry bulk market view improves from negative to neutral -- volatility to remain
- Business model and balance sheet position us well for opportunities in 2010

- Three key goals for 2010 and beyond:
  - Significantly expand our dry bulk fleet
  - Grow our energy and infrastructure services operations
  - Secure profitable employment for remaining RoRo newbuildings
Disclaimer

This presentation contains certain forward looking statements with respect to the financial condition, results of operations and business of Pacific Basin and certain plans and objectives of the management of Pacific Basin.

Such forward looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results or performance of Pacific Basin to be materially different from any future results or performance expressed or implied by such forward looking statements. Such forward looking statements are based on numerous assumptions regarding Pacific Basin's present and future business strategies and the political and economic environment in which Pacific Basin will operate in the future.
Appendix:
China at Mid-Industrialisation Stage

Steel Consumption Per Capita

China growth matches historical trend in Japan and Korea

Suggests strong growth in dry bulk segment to remain for medium term

Similar trend for electricity and cement

Source: UBS, IISI, Pacific Basin
Appendix:

Pacific Basin Dry Bulk - Diversified Cargo

Pacific Basin Dry Bulk Cargo Volume 2009
(Handysize and Handymax)

28.8 Million Tonnes

- Alumina: 6% (+2%)
- Coal / Coke: 9% (+2%)
- Concentrates: 8% (+1%)
- Fertilisers: 8% (-3%)
- Logs & Forest Products: 8% (+2%)
- Ore: 10% (+0%)
- Grains & Agriculture Products: 12% (+0%)
- Sugar: 8% (+3%)
- Steel & Scrap: 7% (-2%)
- Salt: 7% (+2%)
- Petcoke: 4% (-1%)
- Other Bulks: 5% (-4%)

Diverse range of commodities reduces product risk

Australia and China were our largest loading & discharge zones in 2009 respectively

*Other bulks: Gypsum and Sands
() % changes against 2008

| **Financial Drivers**| - Utilization rates  
- Dependent on special projects (e.g. Oil & Gas)  
- Mostly spot rates, leverage on PB Sea-Tow expertise  
- Higher variable cost, mainly repairs & maintenance  
- Strategy: Seeking longer term project charters | - No. of jobs / days  
- Dependent on visiting ship movements  
- Mostly pre-agreed rates  
- Higher fixed costs relative to variable costs e.g. crews  
- Strategy: Pursuing exclusive harbour towage licenses |
Appendix: PB Energy & Infrastructure – Gorgon Project

Pacific Basin’s role:
- 1/3 partner in Offshore Marine Services Alliance (OMSA)
- Secured a A$350m marine logistics contract for the Gorgon Project
- Phase 1: 5 tugs on bareboat charter to the JV
- Outlook: Seeking opportunities to deploy additional vessels on Gorgon and other related projects in the region

Gorgon Project
An LNG project under development in Western Australia:
- development of Greater Gorgon gas fields
- subsea gas-gathering infrastructure
- LNG plant on Barrow Island, expected to export 15 mil tonnes of LNG per annum

Source: Chevron Australia, Pacific Basin
Oil price collapse in 2008 & 2009 resulted in weakened demand and steep decline in offshore charter market.

Economic crisis negatively affected shipping traffic and demand for harbour towage services. Ship movements in Australian container ports fell approx. 20%.

Supply/demand affected by:
- Price of oil and gas
- Barriers to entry
- Cabotage regulations
- Specific market requirements
- High redeployment costs

Towage Market overview
- Fragmented sector
- Almost 14,000 vessels of very different size, age and type
- Average age (21 years)
- Various uses globally

Pacific Basin's chosen sector
Appendix:
PB RoRo Operations

Loading and discharging cargoes over the stern ramp

A wide range of goods on wheeled trailers. Examples:
- Chilled vegetables from Holland to the UK
- Chemicals from the UK to Holland

Our first RoRo vessel has been chartered to Norfolk Line Shipping and is now sailing between Holland and the UK

Only the trailers remain on board while the trucks’ head units & drivers leave the ship

### PB E&I:
- **Towage:** Expansion phase; Tugs & barges increased to 28
- **FBSL:** Reclamation project commenced
- **PacMarine:** Ship survey and inspection services

### PB RoRo
- First RoRo vessel operated from September 2009
- Group results charged US$25.0m impairment losses due to expected lower earnings in 2010 & 2011
